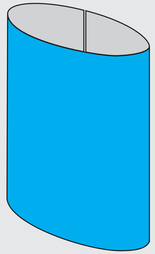
flash

Specifications:

Case Conversion Print

Artwork at 100% of print size

Final Size:
1728mm W x 735mm H
Front View Area:
600mm wide



Graphic Placement

The case conversion graphic gets wrapped around the case. To ensure any logos or text on front do not wrap out of sight, keep any text or logos within the 600mm guide. Background colour/ images can wrap all the way around..

Resolution

We recommend that an image imported into this document at 100% should be 100ppi. Any image that is imported at a higher percentage should have its resolution adjusted accordingly. For example, an image imported at 200% should have an image resolution of 200ppi, an image imported at 400% should have an image resolution of 400ppi and an image imported at 1000% should have an image resolution of 1000ppi.

Front

(Keep logos & text withing this area)
