Note

Bottom 75mm remains rolled in base when fully erected. Extend background image or colour for bleed but keep bottom 75mm free from text.

Resolution

We recommend that an image imported into this document at 100% should be 125ppi. Any image that is imported at a higher percentage should have its resolution adjusted accordingly. For example, an image imported at 200% should have an image resolution of 250ppi, an image imported at 400% should have an image resolution of 500ppi and an image imported at 1000% should have an image resolution of 1250ppi.
